Eco-Quiz

Try the eco quiz and see how much you know about our planet and environment.

Answers at the foot of the page.

HOME

1. It's time to get washed. Which is more eco-friendly?

- A. Bath
- B. Shower

2. When you brush your teeth, what is the best way to save water?

- A. Keep the tap running until you've finished
- B. Use the tap in short spurts

3. Your home is cold. What do you do?

- A. Put on the fan heater or electric heater
- B. Turn up the radiators
- C. Put on some extra clothes

4. We need energy to heat our homes. We use fossil fuel – coal, oil or gas. Burning fossil fuels causes acid rain that damages trees, buildings and our rivers, lakes and oceans. It also affects our climate. Can you think of 3 alternative forms of energy?

OUR PLANET - OUR WORLD

1. Global warming causes:

- A. Stormy weather and high winds
- B. Drought and crop failure
- C. Ice melt in the Arctic and Antarctic

2. How can we help to keep the air clean?

- A. Use the car less and car pool
- B. Cycle or walk to school
- C. Plant a tree
- D. Fly less frequently

3. Recycling helps to:

- A. Reduce landfill
- B. Reduce the need for raw materials
- C. Increase composting material

HOME: 1. B; 2. B; 3. C; 4. Wind turbines, water turbines, solar panels
OUR PLANET: 1. All three; 2. All four; 3. All three
